

2026 VIRTUAL KIT CATALOG

REBUILT™

PRESENTED BY **HAAS**
Gene Haas Foundation

 **FIRST
ROBOTICS
COMPETITION**

WELCOME TO THE 2026 *FIRST*® ROBOTICS COMPETITION SEASON

This Voucher Catalog is a reference for your team. Inside, you'll find additional items and value available to your team via the Kit of Parts system. Each page represents a specific voucher and its particular instructions and details. Don't miss out on any of these opportunities.

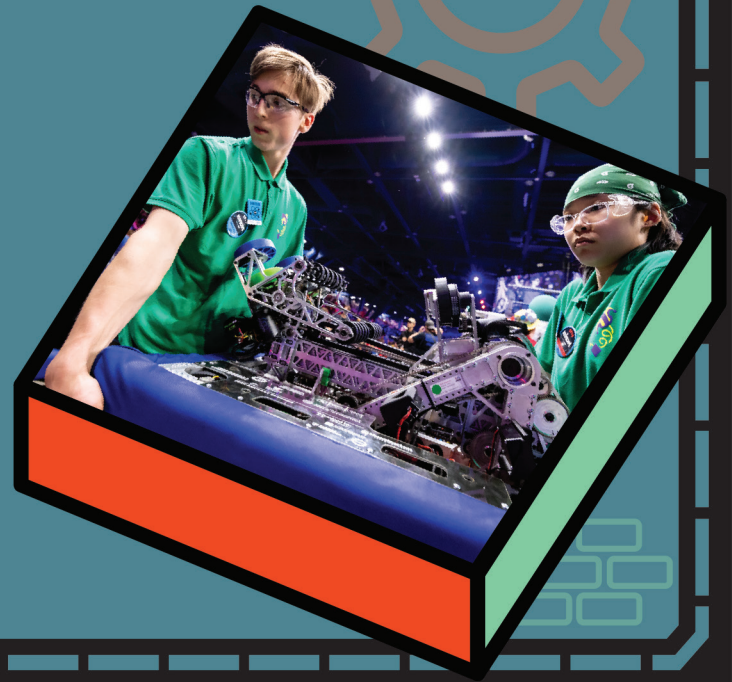

More information about the Kit of Parts can be found at our website:

firstinspires.org/robotics/frc/kit-of-parts

Questions about the Kit of Parts can be sent to:

frcparts@firstinspires.org

We are extremely grateful for the generosity and support that our *FIRST*® Suppliers provide!

n/a

Website

altair.com/first-robotics

Open access to many Altair software apps (via renewable 1-year licenses) for all students and mentors. These apps include, but are not limited to, the following:

Altair® Inspire™ – for 3D simulation-driven design & engineering using 3D CAD geometry – to simulate whether robots will functionally perform as intended via structural analysis, topology optimization / generative design, and motion dynamics.

Altair® AI Studio – (formerly RapidMiner Studio) for code-optional Data Science and AI/ML – especially helpful for rapidly handling, visualizing and analyzing *FIRST*® team scouting data to select optimal Alliance Partners.

Student Edition Bundle – provides access to many Altair software products, beyond just those listed above, such as **Altair® PSIM™** for modeling & simulating power electronics and power conversion between battery- and-motor systems involving direct current (DC) and alternative current (AC) such as *FIRST* robots. Could also help with power management.

Visit Altair's dedicated page in support of *FIRST* Robotics teams (altair.com/first-robotics).

BUILD BETTER ROBOTS, FASTER!

WITH ALTAIR SOFTWARE

Help your *FIRST* team:

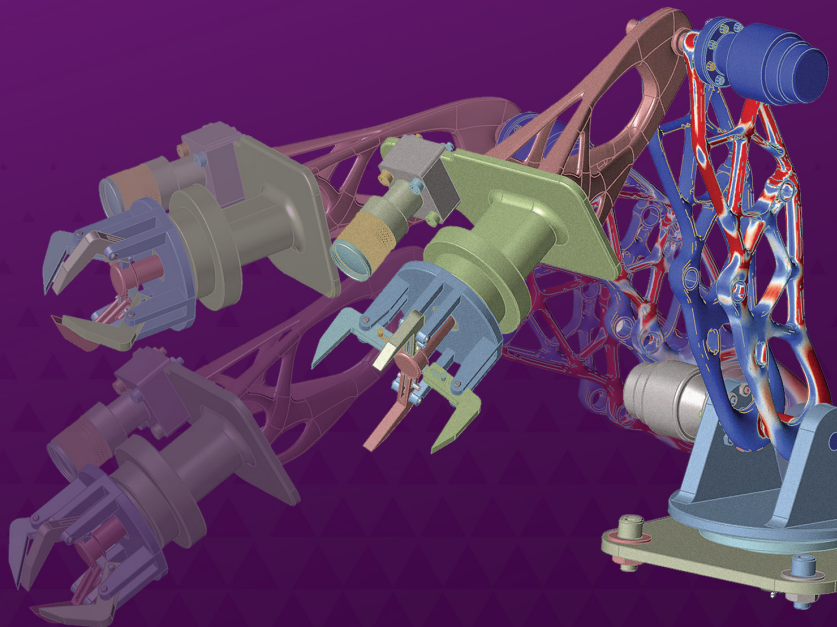

- Avoid broken parts through structural analysis
- Design parts that you can easily 3D-print
- Lightweight your parts through shape optimization
- Maximize your scoring by simulating your moving mechanisms before making them
- Identify your best Alliance Partners by easily gathering and analyzing team scouting data
- Better manage your robot's power consumption

Ansys Software Access

One year from time of access

n/a

ansys.com/student for free download
and ansys.com/teams for full version

FIRST® Robotics teams and mentors can benefit from many Ansys tools. These can be accessed two ways:

Free Student Downloads: Please start with these as these are easily accessible to anyone. We don't collect any personal information and software can be downloaded onto your PC. Please note that there are some limits on these versions. Visit ansys.com/student

Full Version Software: If you are hitting limits and need our full version software, please fill out the "Request Partnership" form found on ansys.com/teams

Software available to teams includes but is not limited to:

Ansys Student: Workbench-based bundle of design and simulation software including Ansys Mechanical™, Ansys CFD™, Ansys Autodyn™, Ansys Discovery™, Ansys SpaceClaim™, and Ansys DesignXplorer™.

Ansys SCADE Student: Unique qualified code-generation technology. It integrates model-based design, simulation and code generation of embedded software.

Ansys LS-DYNA Student: Includes a vast array of capabilities using its explicit solver, allowing the simulation of the response of materials to short periods of severe loading and extreme deformation.

Ansys Electronics Desktop Student: Includes access to simulation software including Ansys HFSS™, Ansys Maxwell™, Ansys Q3D™, and Ansys Icepack™ allowing design work across a broad range of electrical and electro-mechanical systems.

Ansys Zemax OpticStudio™: Provides extensive materials and optical element libraries, students can accurately simulate real-world scenarios.

Additional resources include:

Ansys Innovation Courses: For more than 600 open, free courses on using Ansys software visit ansys.com/courses

Ansys Learning Forum: For Q&A and support visit ansys.com/forum

Autodesk

Free Autodesk software access for students, educators, and *FIRST*® coaches and mentors.

n/a

Included

www.autodesk.com/first

www.autodesk.com/first is a dedicated page for everything *FIRST*® Robotics Competition and Autodesk related, including CAD data sets of the Kit of Parts and playing field, tutorials, and free access to Autodesk software.

Autodesk® Fusion® – Cloud-based CAD, CAM, CAE, and PCB software, enables robot designs, assemblies, photorealistic renderings, fabrication, and team collaboration.

Autodesk® Inventor® – With this professional software, teams can produce 3D models that help with the design and visualization of the robot.

Synthesis: An Autodesk® Technology – Test your designs for driver practice, robot code emulation, strategy, and more with this robotics simulator.

Autodesk® Tinkercad® – Use Tinkercad Circuits environment to program and simulate an Arduino board for use on your robot.

Autodesk, the Autodesk logo, Fusion, Inventor, and Tinkercad are registered trademarks or trademarks of Autodesk, Inc., and/or its subsidiaries and/or affiliates in the USA and/or other countries. All other brand names, product names, or trademarks belong to their respective holders. Autodesk reserves the right to alter product and services offerings, and specifications and pricing at any time without notice, and is not responsible for typographical or graphical errors that may appear in this document. © 2026 Autodesk, Inc. All rights reserved.

Create winning designs

Autodesk is excited to provide open access to our design software, digital fields, and robot part models.

Put your designs to work with our competition simulation software – created specifically for *FIRST*® teams – and get the robot you want on the field faster.

Team Responsibility (see below for details)

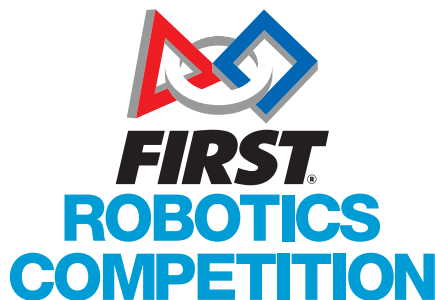

Visit Team Registration Account

(Lead Mentor 1 or 2)

www.AutomationDirect.com

IMPORTANT INSTRUCTIONS

1. To obtain your voucher code, login (as Lead Mentor 1 or 2) at www.firstinspires.org
 2. THEN login to our site with an Existing Account, OR create a New Account here: www.automationdirect.com/new-user
 3. THEN visit www.automationdirect.com/Voucher to enter the code. This will enable a one-time \$50 credit for your account. Any amount not utilized on the order will be forfeited. Note: We cannot apply the credit AFTER you place an order. Use your \$50 voucher toward any items available at: www.AutomationDirect.com.
 4. Orders **must** ship to a US or Canadian address. Credit cards must be issued by a US or Canadian bank.
 5. This voucher cannot be used towards shipping fees or Canadian brokerage fees. A credit card (or PayPal) will be required to pay for shipping for orders under \$49. Larger orders may qualify for free two-day shipping – see Web Site for details: www.automationdirect.com/static/specs/adpolicy.pdf
 6. This voucher cannot be used to pay sales tax. A credit card (or PayPal) will be required to pay any applicable taxes. If your team/organization is tax exempt – you can submit appropriate documentation online during checkout.
- Some Restrictions Apply:**
1. Orders **must** be placed online. No 'call-in' orders. Stock items ordered by 6:00pm EST will ship the next day.

These items are popular with *FIRST*® teams:

(Lead Mentor 1 or 2)

Website

<https://monday.com/lp/academic/frcglobal>

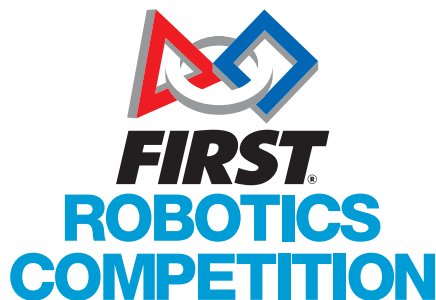

monday.com is pleased to offer free Pro-level accounts to all FIRST® teams.

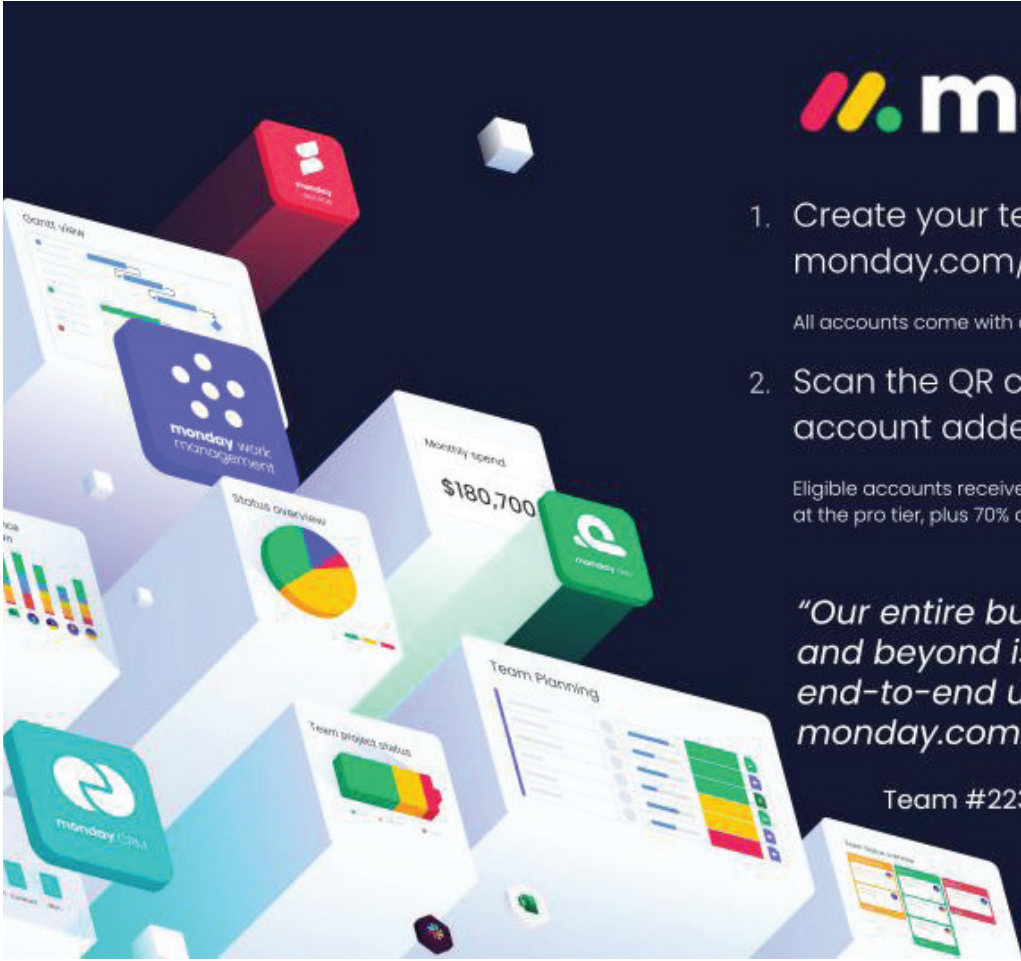

monday.com is a work operating system (Work OS) where organizations of any size can create the tools and processes they need to manage every aspect of their work. By combining building blocks, like apps, automations and integrations, teams can build or customize the workflows of their dreams. It's perfect for managing complex projects (like building robots!) and is currently being used by 225,000 customers and hundreds of FIRST teams globally. *This offer has a value of \$16 per user per month.*

Teams should first create their account on the FIRST Robotics Competition monday.com page: <https://monday.com/lp/academic/frcglobal>.

Then, teams should fill out this short form:

<https://form.workforms.com/3bLjozj> in order to have the Pro-level features added to their account.

monday.com

1. Create your team's account at monday.com/nonprofits
All accounts come with a 14-day free trial
2. Scan the QR code to have your team's account added to our **free** FIRST program
Eligible accounts receive 10 **free** seats on each monday.com product, at the pro tier, plus 70% discount on any extra seats

"Our entire build season and beyond is managed end-to-end using monday.com."

Approximately \$25 worth of products from the TE Connectivity sample program

To redeem: All instructions are available on the on the website, where you can find the product catalog. *FIRST*® teams will use the TE Connectivity sample program to acquire parts. Explore our catalog for suggested and popular pieces! **PLEASE NOTE:** Free domain email addresses (such as gmail, yahoo, and icloud) will be auto-rejected if submitted to the sample program. Please use .edu, .org, or other business/educational email domains to register for the sample program and receive your parts.

LET'S ENGINEER THE FUTURE. TOGETHER.

TE Connectivity has been a proud sponsor of *FIRST*® for over 20 years.

At TE, we believe that every connection has the power to engineer something bigger, and technology brings humanity together.

Learn how TE is engineering a safer, sustainable, productive, and more connected future.
